SUMMARY

Full-Stack Developer proficient in building practical, scalable web applications with experience in both frontend and backend technologies.

PROJECTS

PeakPrep: Scalable web platform connecting students, recruiters, and the Training & Placement department to streamline campus hiring, resume building, interview preparation, and application tracking. Built using Node.js, React, MongoDB, and integrated AI-driven features for personalized feedback and analytics. Worked as a Full-Stack Developer in a team of 4, overseeing both frontend and backend development while ensuring seamless integration across the stack.

- Developed a centralized platform enabling HRs to manage job applications and students to track their application status.
- Built a dynamic resume builder and coding contests module to simulate real-world interview scenarios.
- Designed and implemented personalized feedback systems, improving student progress tracking and HR engagement.
- Integrated AI-powered features for enhanced user experience, leveraging Node.js, React, and MongoDB.

AI Traffic System: Collaborated in a team of 4 to develop an AI-powered traffic management system that optimizes intersection traffic flow using real-time vehicle and pedestrian detection.

- Integrated Azure Custom Vision for precise object detection, improving traffic signal control in real time.
- Developed a machine learning model for dynamic signal timing based on vehicle/pedestrian density, reducing congestion.
- Implemented accident detection and alert system, enhancing safety and emergency response.

Text-it: Built a real-time chat application to improve personal communication with instant messaging and notifications.

- Implemented real-time messaging and user authentication, providing a seamless communication experience.
- Utilized socket.io for real-time updates, enhancing user engagement and interaction.
- Ensured scalability with Node.js and MongoDB for handling concurrent connections.

SKILLS

Programming Languages	Java, C, Python, TypeScript
Development	React.js, Node.js, Express.js, MongoDB, REST APIs
Tools & Platforms	Git, Linux, SQL
Core CS Concepts	Object Oriented Programming, Data Structures & Algorithms
Soft Skills	Problem-Solving, Communication, Teamwork, Adaptability

EDUCATION

Bachelor’s Degree in Computer Science & Engineering, Siksha ‘O’ Anusandhan 2022 - 2026
GPA: 9.2

Secondary and Senior Secondary Education, JNV Khordha 2015 - 2022

CERTIFICATIONS & ACHIEVEMENTS

- Complete Full-Stack Web Development Bootcamp - [Udemy](#) 2024
- DevOps Foundations: AWS, Linux, Scripting - [Udemy](#) 2025
- Ranked in the **Top 15%** globally in [LeetCode](#) Contest Ratings 2025
